Bargaining Bulletin #35

Tuesday, April 07, 2009

We met with the company today in both sub-committees and formal sessions. We had an extensive question and answer period regarding the health and welfare benefit proposals. We clarified some issues, requested more information and asked questions on others. The company provided some of the data from our previous requests and we are still waiting for answers to some of our questions from yesterday. Bargaining continues to move at a snail's pace. How fast are YOU moving?

The bargaining committee will continue to bargain and our members will stay on the job - **but it will not be business as usual!**
