## ***Bargaining Bulletin #46***

***Friday, April 24, 2009***

Today we met in formal session and the company provided us with some additional requested information. It seems the company is unable to give us some of the vital information we have requested. We have asked for projected savings they anticipate by their current Health and Welfare proposals.

They have responded **“The Company has not projected savings by region or bargaining unit”**

Are they serious? Well maybe they are. Maybe they don't care how much they save, or if they save anything, as long as they change the way Healthcare is looked at...

**This consumer driven plan isn't about the cost - just who pays.**  
(unlike the company would have you believe)

Our reports are the only source for accurate information. Keep the pressure on! The company is feeling the heat, together we must convince them that they need to change course and negotiate a fair and just contract.

**STRIKE STANDBY DAY 20!**
