

CWA District 9/AT&T West

Bargaining Bulletin #51

Friday, May 01, 2009

The Memorandum of Agreement subcommittee met and continued dialogue on many agreements that the Company wants to eliminate. We have agreed to continue many and to eliminate some that are no longer relevant.

We are working with the CWA research department in an effort to put a new proposal for Healthcare together. We have notified the company we will be making a proposal this weekend in an effort to get things moving. This is being done in spite of the fact we have not received all of the information requested from the Company.

We will be putting out our next bulletin when we have something of substance to report. In the meantime, stay in contact with your Local and your mobilizer.

Your Strike Standby efforts are what make the difference. We're seeing the company react to your mobilization activities and demonstrations.

You have the power!
