

CWA District 9/AT&T West

Bargaining Bulletin #56

Monday, May 18, 2009

Our committee continues to meet in caucus and in subcommittee with the company on a broad range of issues of concern to our members.

From the Mobilizing Committee

News of our successful rallies and events held last week continues to come in, as mobilization activities continue here in District 9 and across the country. These events, as well as our San Francisco event last Thursday, were all part of a national, coordinated mobilization focused on the delivery of our 80,000 on-line petition signatures.

More mobilizing events are in the works, including a Thursday rally by 9421 and a large march and rally in Oakland on May 28.

You can see photos of mobilization around the AT&T footprint, in all states and Districts, by clicking on <http://www.cwa-union.org/att/> and going to "photos."

Legislative Effort Heats Up

CWA's legislative and political teams are targeting state congressional delegations next week, scheduling dozens of meetings coast to coast to make sure that our Members of Congress understand what is at stake at the bargaining table, and what AT&T's proposals mean to working people. Our rank and file teams are seeking letters of support from MOCs. Here in District 9, the effort is well underway. Stay tuned for results!

Don't forget to sign the bargaining support petition if you haven't already, and be sure to get your friends and family members to sign. We can get more than 100,000 supporters on record with an additional push. Here is the website: www.standwithworkers.com

STRIKE STANDBY DAY 44!

IN UNITY,

Tom Runnion
William B. Harvey
Lupe Mercado
Bill Demers
