## ***Bargaining Bulletin #62***

***Wednesday, June 10, 2009***

Your mobilization efforts have caused the company to finally begin to engage us on the critical health care issue. While we are still far apart, it is a small step in the right direction. We've had several formal and informal sessions with detailed discussions on healthcare, the future of the Premises Technicians and the impact on the Services Technician job functions. The company moved on some issues but have yet to get the message of what our members need and want.

**The company still doesn't get it!!!!**

Help us help you. Pump it up! Create as much chaos as possible. It is your involvement that clearly tells the company that you **demand** a fair and just contract.

Your continued effort to make sure all your work is done safely and with 100% quality, along with your participation in mobilization events, is essential for any movement at the bargaining table.

**STRIKE STANDBY DAY 67!**

IN UNITY,
